

REDI Driver Gas Powered Post Driver

Standard Features

- The GPD-30 Post Driver weighs only 32 lbs
- Fast – drives T-Posts in seconds
- No hydraulic or air hoses to work with
- Internal vibration dampening for operator's comfort
- Manufactured from the highest quality precision machined materials for long tool life
- Heat treated alloy steel and aircraft quality aluminum
- Stainless steel fasteners
- Bearings on all rotating parts

Benefits

- Improves production by reducing worker fatigue...build fence in nearly half the time!
- Easily access those tough areas where other equipment cannot go!
- Isolated spring system on the handles for vibration dampening!
- Save on fuel costs... drive posts all day for less than \$5 vs. \$20 or more for an air compressor!
- Drive a large variety of post sizes up to 3"OD with the 3 1/8" barrel "Boss" model!
- Will not freeze up in cold weather like other post drivers!
- Our handle configuration offers the most "ease while operating" vs. the other post drivers!
- Free shipping in the Continental US
